

## Benefits

- Digital display of pH level
- Integrated silent dosing pump
- Quality pH probe, factory tested and calibrated
- Compatible with new european regulation (N°2019/1148)  
pH correcting agent adjustable concentration

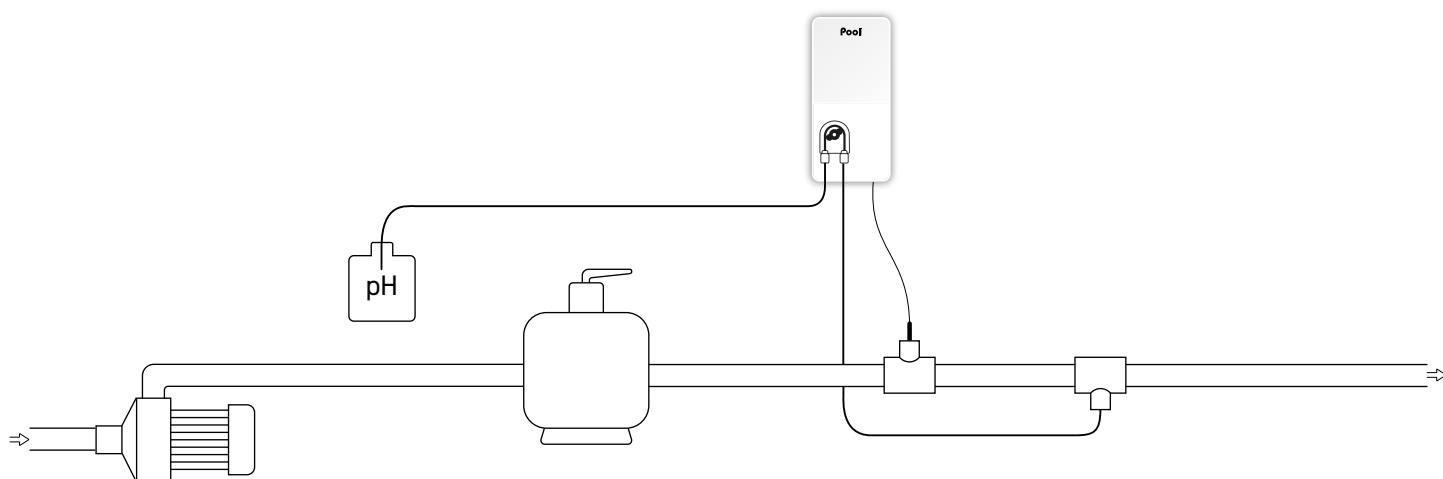

## Features

- Proportional pH regulation according to pool volume
- Regulation of all types of water, acid (pH-) or base (pH+)
- Safety: alarms for set point overrun and overfeeding
- Warning indicator light
- Easy installation and assembly

Model	Pool volume (m <sup>3</sup> )	Pump flow (l/h)	Reference
Mini pH NPS	160	1,8	REGU20NPSB-G1

Technical specifications	
Display	digital display
Corrective solution	pH- or pH+
Type of pH regulation	proportional
Set point adjustment	6,8 to 7,6
pH probe calibration	2 points pH 7 & pH 10
Probe pH	Amber
Control panel size (mm)	W 118 x H 231 x D 78

## Installation diagram

## Content

- Control box
- pH probe Amber
- Calibration solutions pH 7 & pH 10
- Paddle clamp x2 (diam 50 mm)
- Probe holder, injection connector
- Power cable (2 m)
- Wall support (with screws)
- User manual

## Warranties

**2** years Box

**1** year Probe pH Amber
